RESOLUTION 2006-1

COSUMNES, AMERICAN, BEAR AND YUBA (CABY) RIVERS INTEGRATED REGIONAL WATER MANAGEMENT PLAN (IRWMP)

Whereas, population growth and development in the State of California will continue to pressure water resources. Balancing the needs of urban, agricultural, environmental and recreational water supplies will be a challenge for all involved in water management;

Whereas, the CABY planning region consists of the foothill and upper watersheds of the Cosumnes, American, Bear and Yuba Rivers;

Whereas, the CABY Planning Committee's diverse group of public agencies, water providers, agriculture, business, residential water users, community, recreation, and environmental organizations and tribal interests have jointly developed this Integrated Regional Water Management Plan (IRWMP);

Whereas, the IRWMP serves as a voluntary planning document that identifies a broadly supported vision, guiding principles, goals, objectives and projects to enhance the beneficial uses of water for the CABY region,

Whereas, this collaborative planning effort is intended to formulate water management strategies for the region and prioritize projects that address watersheds and regional issues, coordinate with other IRWMPs, address local, state and federal plans', priorities, achieve multiple benefits, encompass more than one watershed, and meet short and long-term water resource needs;

Whereas, CABY Planning Committee members are formulating a cooperative governance structure necessary to implement the IRWMP that is favorable to all local governments, water suppliers, business groups, environmentalists, agriculture, recreation, and citizens,

Whereas, an integrated regional approach to water management will streamline individual efforts and increase efficiencies. The CABY IRWMP will also increase partnership, collaboration and organizational capacity. Collaborative management will provide a forum for stakeholder input and support for projects that address the common goals and objectives for the CABY region;

Whereas, this regional planning effort will improve regional competitiveness for grant funding for projects and efforts to implement the IRWMP and achieve agency or organizational goals;

Whereas, in January of 2006, the CABY Planning Committee began preparation of an Integrated Regional Water Management Plan;

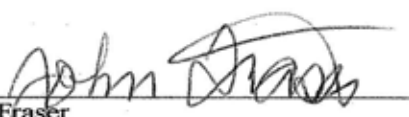

Whereas, MOUNTAIN COUNTIES WATER RESOURCES ASSOCIATION representatives have engaged in good faith negotiations with other stakeholders in the region and have briefed its Board ;

Whereas, the IRWMP will not be a legally binding document. Rather, it will be a regional compact with commitments to work together as a region to implement the Plan;

Whereas, the IRWMP references many plans, the entities that adopt the IRWMP don't necessarily endorse all the plans that are references;

Whereas, the IRWMP will be a living document, reviewed and updated over time. Individual signatories can remain involved or terminate their involvement at any time;

THEREFORE BE IT RESOLVED, that MOUNTAIN COUNTIES WATER RESOURCES ASSOCIATION, hereby adopts the CABY Integrated Regional Water Management Plan as a voluntary document that provides broadly supported identified goals, objectives, strategies, and projects to meet the integrated water needs of the people and rivers of the Cosumnes, American, Bear and Yuba region now and into the future.

**PLACER COUNTY RESOURCE CONSERVATION DISTRICT
RESOLUTION NO. 06-03****Endorsement and Adoption of Cosumnes-American-Bear-Yuba Rivers Integrated Regional Water Management Plan**

Whereas, population growth in the State of California will continue to pressure water resources and balancing the needs of urban, agricultural, environmental, and recreational water supplies will be a challenge for all involved in water management; and

Whereas, the Cosumnes-American-Bear-Yuba Rivers (CABY) planning region consists of the foothill and upper watershed of the Cosumnes, American, Bear, and Yuba Rivers; and

Whereas, the CABY Planning Committee's diverse group of public agencies, water providers, agriculture, business, residential water users, community, recreation, and environmental organizations and tribal interests have jointly developed this Integrated Regional Water Management Plan (IRWMP); and

Whereas, the IRWMP serves as a voluntary planning document that identifies a broadly supported vision, guiding principles, goals, objectives, and projects to enhance the beneficial uses of water for the CABY region; and

Whereas, this collaborative planning effort is intended to formulate water management strategies for the region and prioritize projects that address watershed and regional issues, coordinate with other IRWMPs, address local, state, and federal plans' priorities, achieve multiple benefits, encompass more than one watershed, and meet short and long term water resource needs; and

Whereas, CABY Planning Committee members are formulating a cooperative governance structure necessary to implement the IRWMP that is favorable to all local governments, water suppliers, business groups, environmentalists, agriculture, recreation, and citizens; and

Whereas, an integrated regional approach to water management will streamline individual efforts and increase efficiencies, the CABY IRWMP will also increase partnership, collaboration, and organizational capacity. Collaborative management will provide a forum for stakeholder input and support for projects that address the common goals and objectives for the CABY region; and

Whereas, this regional planning effort will improve regional competitiveness for grant funding for projects and efforts to implement the IRWMP and achieve agency or organizational goals; and

Whereas, in January 2006, the CABY Planning Committee began preparation of an IRWMP; and

Whereas, Placer County Resource Conservation District representatives have engaged in good faith negotiations with other stakeholders in the region and have briefed its Board; and

Whereas, the IRWMP is substantially complete and is being finalized in accordance with the Department of Water Resources Proposition 50 Guidelines; and

**PLACER COUNTY RESOURCE CONSERVATION DISTRICT
RESOLUTION NO. 06-03
(Continued)**

Whereas, the IRWMP is not be a legally binding document, but will serve as a regional compact with commitments to work together as a region to implement the Plan; and

Whereas, the IRWMP references many plans, the entities that adopt the IRWMP don't necessarily endorse all the plans that are referenced; and

Whereas, the IRWMP will be a living document, reviewed, and updated over time; individual signatories can remain involved or terminate their involvement at any time;

Therefore be it Resolved, the Placer County Resource Conservation District hereby adopts that CABY IRWMP as a substantially complete, voluntary document that provides broadly supported identified goals, objectives, strategies, and projects to meet the integrated water needs of the people and the rivers of the CABY region now and into the future. The Board authorizes the General Manager to approve subsequent changes to the IRWMP consistent with the requirement of Proposition 50 Guidelines.

The foregoing resolution was duly passed and adopted by the Board of Directors of the Placer County Resource Conservation District at a regular meeting thereof, held on the 19th day of December, 2006 by the following vote:

AYES: Paull, Wiswell, MacDonald, Smith, Nau, Feldman, Wehri

RESOLUTION NO. WA-2-2007

OF THE BOARD OF DIRECTORS OF THE EL DORADO COUNTY WATER AGENCY RESOLUTION ADOPTING AND ENDORSING CABY IRWMP

WHEREAS, population growth and development in the State of California will continue to pressure water resources. Balancing the needs of urban, agricultural, environmental and recreational water supplies will be a challenge for all involved in water management.

WHEREAS, a diverse group of public agencies, water providers, agriculture, business, residential water users, community, recreation, and environmental organizations and tribal interests of the foothill and upper watersheds of the Cosumnes, American, Bear, and Yuba Rivers ("CABY") have formed the CABY planning region .

WHEREAS, in January 2006 the CABY Planning Committee began development and preparation of an Integrated Regional Water Management Plan (IRWMP) for the CABY planning region, which is substantially complete but may require minor technical corrections or modifications in the future.

WHEREAS, the IRWMP serves as a voluntary planning document that identifies a broadly supported vision, guiding principles, goals, objectives and projects to enhance the beneficial uses of water for the CABY region.

WHEREAS, this collaborative planning effort is intended to formulate water management strategies for the CABY region and to prioritize projects that address watersheds and regional issues, coordinate with other IRWMPs, address local, State and Federal plans' priorities, achieve multiple benefits, encompass more than one watershed, and meet both short and long term water resource needs.

WHEREAS, CABY Planning Committee members are formulating a voluntary cooperative governance structure deemed necessary to implement the IRWMP that will be favorable to all local governments, water suppliers, business groups, environmentalists, agriculture, recreation, and citizens.

WHEREAS, an integrated regional approach to water management will streamline individual efforts and increase efficiencies. The CABY IRWMP will also increase partnership, collaboration and organizational capacity. Collaborative management will provide a forum for stakeholder's input and support for projects that address the common goals and objectives of the CABY region.

WHEREAS, this regional planning effort will improve regional competitiveness for grant funding for projects and efforts to implement the IRWMP and achieve agency or organizational goals.

WHEREAS, El Dorado County Water Agency representatives have engaged in good faith negotiations with other stakeholders in the CABY planning region and have briefed their Board of Directors.

WHEREAS, the IRWMP will not be a legally binding document, rather, it will be a regional compact with commitments to work together as a region to implement the IRWMP.

WHEREAS, the IRWMP will be a living document, reviewed and updated over time. Individual signatories can remain involved or terminate their involvement at any time.

WHEREAS, the IRWMP references many plans, the entities that adopt the IRWMP don't necessarily endorse all the plans that are referenced.

THEREFORE BE IT RESOLVED, that the El Dorado County Water Agency hereby adopts the CABY Integrated Regional Water Management Plan as a voluntary document that provides broadly supported, identified goals, objectives, strategies, and projects to meet the integrated water needs of the people and the rivers of the Cosumnes, American, Bear and Yuba region now and into the future; and

BE IT FURTHER RESOLVED, that the General Manager of the El Dorado County Water Agency is hereby authorized to act upon, including approve, minor technical corrections or modifications to the IRWMP that are developed and approved by the CABY Planning Committee after the adoption of this Resolution, which action shall be as binding and have the same force and effect as if such corrections or modifications had been included in the IRWMP acted upon by the Agency's Board of Directors this date.

PASSED AND ADOPTED BY THE Board of Directors of the El Dorado County Water Agency at a regular meeting of said Board, held on January 10, 2007, by the following vote of said Board:

HNW/mpf:grants/2007 CABY IRWMP Endorsement

**RESOLUTION NO. 2007-02
OF THE BOARD OF DIRECTORS OF THE
GOERGETOWN DIVIDE PUBLIC UTILITY DISTRICT
ADOPTING AND ENDORSING CABY IRWMP**

WHEREAS, population growth and development in the State of California will continue to pressure water resources. Balancing the needs of urban, agricultural, environmental and recreational water supplies will be a challenge for all involved in water management.

WHEREAS, a diverse group of public agencies, water providers, agriculture, business, residential water users, community, recreation, and environmental organizations and tribal interests of the foothill and upper watersheds of the Cosumnes, American, Bear, and Yuba Rivers ("CABY") have formed the CABY planning region .

WHEREAS, in January 2006 the CABY Planning Committee began development and preparation of an Integrated Regional Water Management Plan (IRWMP) for the CABY planning region, which is substantially complete but may require minor technical corrections or modifications in the future.

WHEREAS, the IRWMP serves as a voluntary planning document that identifies a broadly supported vision, guiding principles, goals, objectives and projects to enhance the beneficial uses of water for the CABY region.

WHEREAS, this collaborative planning effort is intended to formulate water management strategies for the CABY region and to prioritize projects that address watersheds and regional issues, coordinate with other IRWMPs, address local, State and Federal plans' priorities, achieve multiple benefits, encompass more than one watershed, and meet both short and long term water resource needs.

WHEREAS, CABY Planning Committee members are formulating a voluntary cooperative governance structure deemed necessary to implement the IRWMP that will be favorable to all local governments, water suppliers, business groups, environmentalists, agriculture, recreation, and citizens.

WHEREAS, an integrated regional approach to water management will streamline individual efforts and increase efficiencies. The CABY IRWMP will also increase partnership, collaboration and organizational capacity. Collaborative management will provide a forum for stakeholder's input and support for projects that address the common goals and objectives of the CABY region.

WHEREAS, this regional planning effort will improve regional competitiveness for grant funding for projects and efforts to implement the IRWMP and achieve agency or organizational goals.

WHEREAS, El Dorado County Water Agency representatives have engaged in good faith negotiations with other stakeholders in the CABY planning region and have briefed their Board of Directors.

WHEREAS, Georgetown Divide Public Utility District has representation on the El Dorado County Water Agency Board of Directors at this time.

WHEREAS, the IRWMP will not be a legally binding document, rather, it will be a regional compact with commitments to work together as a region to implement the IRWMP.

WHEREAS, the IRWMP will be a living document, reviewed and updated over time. Individual signatories can remain involved or terminate their involvement at any time.

WHEREAS, the IRWMP references many plans, the entities that adopt the IRWMP do not necessarily endorse all the plans that are referenced.

THEREFORE BE IT RESOLVED, that the Georgetown Divide Public Utility District hereby adopts the CABY Integrated Regional Water Management Plan as a voluntary document that provides broadly supported, identified goals, objectives, strategies, and projects to meet the integrated water needs of the people and the rivers of the Cosumnes, American, Bear and Yuba region now and into the future; and

BE IT FURTHER RESOLVED, that the President of the Board of Directors of the Georgetown Divide Public Utility District or the President's designee is hereby authorized to act upon, including approve, minor technical corrections or modifications to the IRWMP that are developed and approved by the CABY Planning Committee after the adoption of this Resolution, which action shall be as binding and have the same force and effect as if such corrections or modifications had been included in the IRWMP acted upon by the District's Board of Directors this date.

PASSED AND ADOPTED BY THE Board of Directors of the Georgetown Divide Public Utility District at a regular meeting of said Board, held on January 9, 2007, by the following vote of said Board:

Ayes: Michael Cooper, Bob Diekon, Norman Krizl and JoAnn Shepherd

RESOLUTION NO. 2007-01

Of the Board of Directors of the Georgetown Divide Resource Conservation District

A Resolution Supporting and Endorsing the Cosumnes, American, Bear and Yuba Rivers Integrated Regional Water Management Plan.

Whereas, population growth and development in the State of California will continue to pressure water resources. Balancing the needs of urban, agricultural, environmental and recreational water supplies will be a challenge for all involved in water management.

Whereas, the CABY planning region consists of the foothill and upper watersheds of the Cosumnes, American, Bear, and Yuba Rivers.

Whereas, the CABY Planning Committee's diverse group of public agencies, water providers, agriculture, business, residential water users, community, recreation, and environmental organizations and tribal interests have jointly developed this Integrated Regional Water Management Plan (IRWMP);

Whereas, the IRWMP serves as a voluntary planning document that identifies a broadly supported vision, guiding principles, goals, objectives and projects to enhance the beneficial uses of water for the CABY region.

Whereas, this collaborative planning effort is intended to formulate water management strategies for the region and prioritize projects that address watersheds and regional issues, coordinate with other IRWMPs, address local, state and federal plans' priorities, achieve multiple benefits, encompass more than one watershed, and meet short- and long-term water resource needs.

Whereas, CABY Planning Committee members are formulating a cooperative governance structure necessary to implement the IRWMP that is favorable to all local governments, water suppliers, business groups, environmentalists, agriculture, recreation, and citizens.

Whereas, an integrated regional approach to water management will streamline individual efforts and increase efficiencies. The CABY IRWMP will also increase partnership, collaboration and organizational capacity. Collaborative management will provide a forum for stakeholder input and support for projects that address the common goals and objectives for the CABY region.

CABY Resolution for Adoption

Whereas, this regional planning effort will improve regional competitiveness for grant funding for projects and efforts to implement the IRWMP and achieve agency or organizational goals.

Whereas, in January of 2006, the CABY Planning Committee began preparation of an Integrated Regional Water Management Plan;

Whereas, the Georgetown Divide Resource Conservation District representatives have engaged in good faith negotiations with other stakeholders in the region and have briefed its Board and/or leaders.

Whereas, the IRWMP is substantially complete and is being finalized in accordance with the Department of Water Resources Proposition 50 guidelines.

Whereas, the IRWMP will not be a legally binding document. Rather, it will be a regional compact with commitments to work together as a region to implement the plan.

Whereas, the IRWMP references many plans, the entities that adopt the IRWMP don't necessarily endorse all the plans that are referenced.

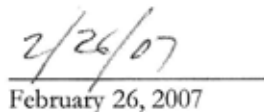

Whereas, the IRWMP will be a living document, reviewed and updated over time. Individual signatories can remain involved or terminate their involvement at any time.

THEREFORE BE IT RESOLVED, that the Georgetown Divide Resource Conservation District hereby adopts the CABY Integrated Regional Water Management Plan as a substantially complete, voluntary document that provides broadly supported, identified goals, objectives, strategies, and projects to meet the integrated water needs of the people and the rivers of the Cosumnes, American, Bear and Yuba region now and into the future.

RESOLUTION No. 2006-62

OF THE BOARD OF DIRECTORS OF THE NEVADA IRRIGATION DISTRICT

ENDORISING AND ADOPTING THE COSUMNES, AMERICAN, BEAR AND YUBA (CABY) RIVERS INTEGRATED REGIONAL WATER MANAGEMENT PLAN (IRWMP)

WHEREAS, population growth and development in the State of California will continue to pressure water resources. Balancing the needs of urban, agricultural, environmental and recreational water supplies will be a challenge for all involved in water management; and

WHEREAS, the CABY planning region consists of the foothill and upper watersheds of the Cosumnes, American, Bear, and Yuba Rivers; and

WHEREAS, in January of 2006, the CABY Planning Committee began preparation of an Integrated Regional Water Management Plan (IRWMP); and

WHEREAS, the CABY Planning Committee's diverse group of public agencies, water providers, agriculture, business, residential water users, community, recreation, and environmental organizations and tribal interests have jointly developed the IRWMP; and

WHEREAS, the IRWMP serves as a voluntary planning document that identifies a broadly supported vision, guiding principles, goals, objectives and projects to enhance the beneficial uses of water for the CABY region; and

WHEREAS, this collaborative planning effort is intended to formulate water management strategies for the region and prioritize projects that address watersheds and regional issues, coordinate with other IRWMPs, address local, state and federal plans' priorities, achieve multiple benefits, encompass more than one watershed, and meet short- and long-term water resource needs; and

WHEREAS, the CABY Planning Committee members are formulating a cooperative governance structure necessary to implement the IRWMP that is favorable to all local governments, water suppliers, business groups, environmentalists, agriculture, recreation, and citizens; and

Resolution No. 2006-62
Page 2 of 3

WHEREAS, an integrated regional approach to water management will streamline individual efforts and increase efficiencies; and

WHEREAS, the CABY IRWMP will increase partnership, collaboration and organizational capacity with a collaborative management process that will provide a forum for stakeholder input and support for projects that address the common goals and objectives for the CABY region; and

WHEREAS, this regional planning effort will improve regional competitiveness for grant funding for projects and efforts to implement the IRWMP and achieve agency or organizational goals; and

WHEREAS, Nevada Irrigation District representatives have engaged in good faith negotiations with other stakeholders in the region and have provided regular briefings to the Board of Directors; and

WHEREAS, the IRWMP will not be a legally binding document, but rather, it will be a regional compact between members with commitments to work together as a region to implement the plan; and

WHEREAS, the IRWMP will be a living document, reviewed and updated over time, and individual signatories can remain involved or terminate their involvement at any time; and

WHEREAS, the second draft IRWMP, dated November 15, 2006, has been reviewed by the Board of Directors and was found to be substantially complete; and

WHEREAS, minor additions and/or revisions to the draft IRWMP may be needed before finalizing the plan.

NOW, THEREFORE BE IT RESOLVED, that the Board of Directors of the Nevada Irrigation District hereby adopts the CABY Integrated Regional Water Management Plan as a voluntary document that provides broadly supported, identified goals, objectives, strategies, and projects to meet the integrated water needs of the people and the rivers of the Cosumnes, American, Bear and Yuba region now and into the future.

BE IT FURTHER RESOLVED, that the General Manager of the Nevada Irrigation District is hereby authorized to approve minor, non-substantial revisions to finalize the IRWMP, on behalf of the Nevada Irrigation District.

Resolution No. 2006-62

Resolution 2007-01

ENDORSEMENT OF INTEGRATED REGIONAL WATER MANAGEMENT PLAN (IRWMP) FOR COSUMNES/BEAR/AMERICAN/YUBA WATERSHEDS

WHEREAS, population growth and development in the State of California will continue to pressure water resources. Balancing the needs of urban, agricultural, environmental and recreational water supplies will be a challenge for all involved in water management.

WHEREAS, the CABY planning region consists of the foothill and upper watersheds of the Cosumnes, American, Bear, and Yuba Rivers.

WHEREAS, the CABY Planning Committee's diverse group of public agencies, water providers, agriculture, business, residential water users, community, recreation, and environmental organizations and tribal interests have jointly developed this Integrated Regional Water Management Plan (IRWMP);

WHEREAS, the IRWMP serves as a voluntary planning document that identifies a broadly supported vision, guiding principles, goals, objectives and projects to enhance the beneficial uses of water for the CABY region.

WHEREAS, this collaborative planning effort is intended to formulate water management strategies for the region and prioritize projects that address watersheds and regional issues, coordinate with other IRWMPs, address local, state and federal plans' priorities, achieve multiple benefits, encompass more than one watershed, and meet short- and long-term water resource needs.

WHEREAS, CABY Planning Committee members are formulating a cooperative governance structure necessary to implement the IRWMP that is favorable to all local governments, water suppliers, business groups, environmentalists, agriculture, recreation, and citizens.

WHEREAS, an integrated regional approach to water management will streamline individual efforts and increase efficiencies. The CABY IRWMP will also increase partnership, collaboration and organizational capacity. Collaborative management will provide a forum for stakeholder input and support for projects that address the common goals and objectives for the CABY region.

WHEREAS, this regional planning effort will improve regional competitiveness for grant funding for projects and efforts to implement the IRWMP and achieve agency or organizational goals.

WHEREAS, in January of 2006, the CABY Planning Committee began preparation of an Integrated Regional Water Management Plan;

WHEREAS, North San Juan Fire Protection District representatives have engaged in good faith negotiations with other stakeholders in the region and have briefed its Board and/or leaders.

WHEREAS, the IRWMP is substantially complete and is being finalized in accordance with the Department of water Resources Proposition 50 guidelines.

WHEREAS, the IRWMP will not be a legally binding document. Rather, it will be a regional compact with commitments to work together as a region to implement the plan.

WHEREAS, the IRWMP references many plans, the entities that adopt the IRWMP don't necessarily endorse all the plans that are referenced.

WHEREAS, the IRWMP will be a living document, reviewed and updated over time. Individual signatories can remain involved or terminate their involvement at any time.

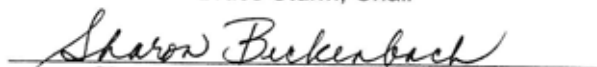

THEREFORE BE IT RESOLVED, that the North San Juan Fire Protection District hereby adopts the CABY Integrated Regional Water Management Plan as a substantially complete, voluntary document that provides broadly supported, identified goals, objectives, strategies, and projects to meet the integrated water needs of the people and the rivers of the Cosumnes, American, Bear and Yuba region now and into the future. The North San Juan Fire Protection District authorizes the Board Chair to approve subsequent changes to the IRWMP consistent with the requirements of proposition 50 guidelines.

RESOLUTION NO.06- 57 OF THE BOARD OF DIRECTORS OF
THE PLACER COUNTY WATER AGENCY ENDORSING AND
ADOPTING THE COSUMNES, AMERICAN, BEAR, AND YUBA
(CABY) RIVERS INTEGRATED REGIONAL WATER
MANAGEMENT PLAN

Whereas, population growth and development in the State of California will continue to pressure water resources. Balancing the needs of urban, agricultural, environmental and recreational water supplies will be a challenge for all involved in water management.

Whereas, the CABY planning region consists of the foothill and upper watersheds of the Cosumnes, American, Bear, and Yuba Rivers.

Whereas, the CABY Planning Committee's diverse group of public agencies, water providers, agriculture, business, residential water users, community, recreation, and environmental organizations and tribal interests have jointly developed this Integrated Regional Water Management Plan (IRWMP);

Whereas, the IRWMP serves as a voluntary planning document that identifies a broadly supported vision, guiding principles, goals, objectives and projects to enhance the beneficial uses of water for the CABY region.

Whereas, this collaborative planning effort is intended to formulate water management strategies for the region and prioritize projects that address watersheds and regional issues, coordinate with other IRWMPs, address local, state and federal plans' priorities, achieve multiple benefits, encompass more than one watershed, and meet short- and long-term water resource needs.

Whereas, CABY Planning Committee members are formulating a cooperative governance structure necessary to implement the IRWMP that is favorable to all local governments, water suppliers, business groups, environmentalists, agriculture, recreation, and citizens.

Whereas, an integrated regional approach to water management will streamline individual efforts and increase efficiencies. The CABY IRWMP will also increase partnership, collaboration and organizational capacity. Collaborative management will provide a forum for stakeholder input and support for projects that address the common goals and objectives for the CABY region.

Whereas, this regional planning effort will improve regional competitiveness for grant funding for projects and efforts to implement the IRWMP and achieve agency or organizational goals.

Whereas, in January of 2006, the CABY Planning Committee began preparation of an Integrated Regional Water Management Plan;

Whereas, Placer County Water Agency representatives have engaged in good faith negotiations with other stakeholders in the region and have briefed its Board and/or leaders.

Whereas, the IRWMP will not be a legally binding document. Rather, it will be a regional compact with commitments to work together as a region to implement the plan.

Whereas, the IRWMP will be a living document, reviewed and updated over time. Individual signatories can remain involved or terminate their involvement at any time.

THEREFORE BE IT RESOLVED, that the Placer County Water Agency hereby adopts the CABY Integrated Regional Water Management Plan as a voluntary document that provides broadly supported, identified goals, objectives, strategies, and projects to meet the integrated water needs of the people and the rivers of the Cosumnes, American, Bear and Yuba region now and into the future.

The foregoing resolution was duly passed at a adjourned meeting of the Board of Directors of the Placer County Water Agency held on December 21, 2006, by the vote on roll call:

AYE DIRECTORS: Gray Allen, Alex Ferreira, Mike Lee,
Otis Wollan, Chair Lowell Jarvis

NOES DIRECTORS: None

ABSENT DIRECTORS: None

Signed and approved by me after passage this 21st day of December, 2006.

Chairman, Board of Directors
Placer County Water Agency

ATTEST:

Clerk, Board of Directors
Placer County Water Agency

Resolution of Adoption Cosumnes, American, Bear and Yuba (CABY) Rivers Integrated Regional Water Management Plan (IRWMP)

Whereas, population growth and development in the State of California will continue to pressure water resources. Balancing the needs of urban, agricultural, environmental and recreational water supplies will be a challenge for all involved in water management.

Whereas, the CABY planning region consists of the foothill and upper watersheds of the Cosumnes, American, Bear, and Yuba Rivers.

Whereas, the CABY Planning Committee's diverse group of public agencies, water providers, agriculture, business, residential water users, community, recreation, and environmental organizations and tribal interests have jointly developed this Integrated Regional Water Management Plan (IRWMP);

Whereas, the IRWMP serves as a voluntary planning document that identifies a broadly supported vision, guiding principles, goals, objectives and projects to enhance the beneficial uses of water for the CABY region.

Whereas, this collaborative planning effort is intended to formulate water management strategies for the region and prioritize projects that address watersheds and regional issues, coordinate with other IRWMPs, address local, state and federal plans' priorities, achieve multiple benefits, encompass more than one watershed, and meet short- and long-term water resource needs.

Whereas, CABY Planning Committee members are formulating a cooperative governance structure necessary to implement the IRWMP that is favorable to all local governments, water suppliers, business groups, environmentalists, agriculture, recreation, and citizens.

Whereas, an integrated regional approach to water management will streamline individual efforts and increase efficiencies. The CABY IRWMP will also increase partnership, collaboration and organizational capacity. Collaborative management will provide a forum for stakeholder input and support for projects that address the common goals and objectives for the CABY region.

Whereas, this regional planning effort will improve regional competitiveness for grant funding for projects and efforts to implement the IRWMP and achieve agency or organizational goals.

Whereas, in January of 2006, the CABY Planning Committee began preparation of an Integrated Regional Water Management Plan;

Whereas, Protect American River Canyons representatives have engaged in good faith negotiations with other stakeholders in the region and have briefed its Board and/or leaders.

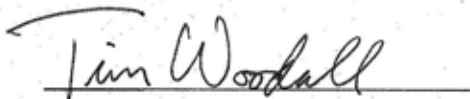

Whereas, the IRWMP is substantially complete and is being finalized in accordance with the Department of Water Resources Proposition 50 guidelines.

Whereas, the IRWMP will not be a legally binding document. Rather, it will be a regional compact with commitments to work together as a region to implement the plan.

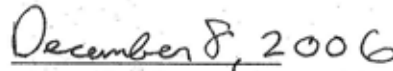

Whereas, the IRWMP references many plans, the entities that adopt the IRWMP don't necessarily endorse all the plans that are referenced.

Whereas, the IRWMP will be a living document, reviewed and updated over time. Individual signatories can remain involved or terminate their involvement at any time.

THEREFORE BE IT RESOLVED, that Protect American River Canyons hereby adopts the CABY Integrated Regional Water Management Plan as a substantially complete, voluntary document that provides broadly supported, identified goals, objectives, strategies, and projects to meet the integrated water needs of the people and the rivers of the Cosumnes, American, Bear and Yuba region now and into the future. Protect American River Canyons authorizes Gary Estes to approve subsequent changes to the IRWMP consistent with the requirements of Proposition 50 guidelines.
